

Benefits of *Scholastic Advance Priority Plus* Services

With our SAPP Service, you receive everything that's included with the Priority Plus plan including the following additional Scholastic Advance services:

• *SAT and ACT Preparatory Courses*

Collegiate Financial's **SAT and ACT Preparatory Courses** were designed with two

1) To help raise the SAT and ACT scores of Students who have already taken the SAT and/or ACT but did not perform as well as they would have liked to.

2) To help Students who have yet to take the SAT and/or ACT receive the highest possible score based on their individual capabilities.

We have partnered up with one of the leading SAT and ACT Preparatory Firms in the country to design this program *exclusively* for members of Collegiate Financial's Priority Plus "Platinum Package". Students who have participated in this course have raised their SAT score by an average of 225 points and the ACT score by an average of 4 Points!! Each course is roughly 3 hours long and is conveniently posted on your CFSI Client Page for immediate access.

Unlike most 20 hour Preparatory Courses that are on the market today, our proprietary courses are only 3 hours in length. The reason being is that through research, we have found that most Students' perform better when they only have to pay attention to pure tips and strategies... not the "filler content" that is involved in many of these 20 hours classes. Our proprietary SAT and ACT courses eliminates that "filler content" so that the student can only focus on the key strategies that will teach them the secrets of acing the SAT and to master the ACT!

Unlimited Q&A Email Access to Our Highly- Acclaimed Expert SAT / ACT Team

unlimited access to our SAT / ACT Team of experts is a huge benefit for students. **The truth is; despite the limited resources from school counselors, libraries, and free online prep courses, many students still feel completely alone, overwhelmed, and often intimidated when it comes to ACT / SAT preparation.**

We understand that many parents and students have questions before and after they take the test for the 1st time. We give all SAPP members UNLIMITED email follow-up with our exclusive SAT/ACT experts where you can ask any follow-up questions in regards to the SAT & ACT courses. As a SAPP member you will have "on-call" experts on your side at all times!

College Admission Essay Review

The **College Admission Essay Review** program is how we can help Students increase their chances of college admission by helping review, edit, and critique up to 3 of their essays. Our NACAC (National Association of College Admission Counseling) Counselors know the “tricks of the trade” and they know what colleges are looking for when it comes to Admission Essays. Nowadays, millions of students have ‘good grades’; thus colleges have gotten more and more competitive. The Admission Essay is the colleges one chance to see how well a student can solidify and conclude their positioning with that specific college. Therefore, it’s become an integral part of the Admissions Process.

Here is how the College Admission Essay Review process actually works:

Once the Student has written his or her essays and has had them reviewed by a teacher, parent, school guidance counselor, sibling or friend, and the student thinks they’re nearly ready to send off, the student should email up to 3 of them to us (well in advance of any deadlines). Students must also let us know which college each is intended for. Our Essay Reviewers will review up to 3 essays and let the student know if the essays are appropriate for the student and the college to which he/she is applying, and if the student replied to the prompts in ways that reflect the Student’s best.

However, please keep in mind that it is the student’s responsibility to actually write the essays. The NACAC Counselor assigned to your student will professionally review, edit and critique up to 3 essays. If there is anything in the essay that the reviewer feels should be added, subtracted, edited, changed, etc... to help more accurately illustrate the message your student is trying to make to the college, they will make their notes in red (so that both parents and students may see the changes) and forward the appropriate responses to the student. The College Admission Essay Review service allows for 1 professional review of each of the 3 essays.

In-Depth Personalized Analysis on your Chances of Enrollment

The **In-Depth Personalized Analysis on your Chances of Enrollment** at up to 4 colleges will let you know in advance your chances of admission at over 150 of the nations’ Top Colleges (including the Ivy League!) – with a 94% accuracy rate! This analysis was developed by Ivy League-educated experts that assess hundreds of variables – from extracurricular activities to GPA – and tells you **exactly how likely you are to get into each college**. Stop sweating bullets and losing sleep wondering if you’ve got a shot at admission!

Unlike many counselors who use broad labels such as "reach" or "safety" schools, our report quantifies your chances of getting in using percentages. We combine our admissions expertise with advanced statistical analysis to give you your probability of admission at the colleges you are considering. Knowing whether you have an 83% chance of getting into a college or a 35% chance enables you to make the best and most informed application decisions.

Follow-Up Student/Parent Q&A Interview with their very own Private NACAC Admissions Counselor

A follow-up student / parent Q&A interview with their very own private NACAC admissions coach. In addition to the one student Interview, you and your student will have access to a personalized Q&A follow-up interview with a NACAC Certified Admissions counselor where both the parent and student can ask ANY follow-up questions they have about schools, admissions, applications, deadlines, etc.

We got the last update. Wanted to ask: Are you familiar with what the national average is for some of the services that you do? Me and my wife searched online to price a private student counselor and a well recommended ACT Prep service. Both were similar to what you do and it was close to \$3,500 for the both of them which we found was about the national average. Just wondering if you guys knew this. We have about 11 or 12 High schools here, not to mention the private schools and these services are much needed here. Thanks for being less than the national average and also for being in Mobile.
